

Declaration of Conflict-free minerals

Dear customer:

From corporate social responsibility point of view, the social and environmental problems related to product parts, materials and the manufacturing process has received worldwide attention in recent years. The rich mineral resources in the Democratic Republic of Congo (DRC) have fueled one of the world's deadliest conflicts. We understand that most of our suppliers do not have a direct purchasing relationship with mining companies.

Donné draad B.V. is taking and will take due diligence within our supply chain to assure "Metal Conflict-Free" for the metals of gold (Au), tantalum (Ta), tungsten (W), cobalt (Co) and tin (Sn) are not derived from or sourced from mines in conflict areas of the Democratic Republic of Congo (DRC), or illegally taxed on trade routes, either of which are controlled by non-governmental military groups, or unlawful military factions. Trade routes not confirmed to be "Conflict Free" include direct exports from the DRC, as well as exports through Rwanda, Uganda, Burundi, Tanzania and Kenya (countries of whom the U.N. Security Council notes as global export routes for DRC-mined minerals).

Nieuw Bergen, June 2016
